The Printer That Can Make You Look Like a Better Photographer.

- 3,072 two picoliter nozzles for incredible speed
- 6 individual ink tanks can save you money
- Borderless 4"x 6" photos in approx. 37 seconds*
- Up to 4800 x 1200 dpi
- Exif Print for smart photo processing of digital camera images

Incredible speed, amazing detail.

The Canon *i950* Photo Printer delivers both incredible speed and superbly detailed images. Its print head features 3,072 precisely machined nozzles ejecting consistent prescribed-volume droplets in a microscopic 2-picoliter droplet size perfect for ultra-fine, ultra-fast printing. Canon advanced MicroFine Droplet Technology™ is remarkably accurate, and you'll see it in your photo results. The *i950* Photo Printer achieves an outstanding resolution of up to 4800 x 1200 dpi** with up to 49 gradation levels for breathtaking detail and color fidelity. Technological innovation and cutting-edge design make the *i950* Photo Printer the "sophisticated" photo printer choice for the photographer in everyone.

Photo printing with no borders.

The *i950* Photo Printer enables you to print true borderless photos, with the look and feel of a traditional photograph. Now you can produce 4" x 6", 5" x 7" or 8.5" x 11" borderless prints* with stunning color accuracy and fine edge-to-edge detail. How fast? In just about 37 seconds you'll have a spectacular 4" x 6" borderless print.

Individual ink tanks and exclusive software.

The *i950* Photo Printer features the Canon Think Tank System™ with its six individual ink tanks coupled with an intelligent ink management system. Replace only the color that runs out rather than the entire cartridge—a real advantage when printing high-intensity color photos. The *i950* Photo Printer supports the worldwide standard Exif 2.2 (Exchangeable Image Format File), so that when an Exif-compliant camera captures a photo, important camera settings and shooting conditions are saved in the JPEG image file. Canon exclusive Easy-PhotoPrint*** software analyzes the recorded data and then automatically adjusts printer driver settings for optimum image processing. The result is exceptional digital photos that can be virtually indistinguishable from traditional film-based photography.

* Mac OS X borderless printing requires ver. 10.2 or later.

** Ink droplets can be placed with a minimum pitch of 1/4800 inch.

*** Windows® users only.

TRUE HARMONY
IN A DIGITAL WORLD.

Specifications*

Color Photo	4" x 6" Borderless —approximately 37 seconds
Print Speed**	8" x 10"—approximately 1 minute
Number of Nozzles	3,072 nozzles (512 x 6 colors)
Print Resolution (up to)	4800 x 1200 dpi***
Interface	USB, cable not included
